

EVALUATION & AUDIT

AUDIT ACCOUNTABILITY

Transactions are time-stamped, automatically and immutably archived

- Integrated evaluation indicators for outcome (QA) and process=QC evaluation
- Data remains accessible/auditable despite time zone differences, HR, emergency...
- Suited to producing evidence of fraud

NEEDS ASSESEMENT & ANALYSIS

DATA INEGRITY FOR ACCURATE ASSESMENT

Data collected from the previous projects is tamper-proof, cannot be deleted/alterd by a single actor

- Country/ region specific needs are known
- Reliable data to assess capacities and risks

STRATEGIC PLANNING

RESPONSE & MONITORING

TRACEABILITY & VISIBILITY

Humanitarian actors can upload/view consistent information, no need for database reconciliation

- Accurate stock management
- Effective monitoring system (integrated indicators)
- Faster reporting (database automatically updated)
 - Reduced risk of errors/fraud
- Better use of time and resources

RESSOURCE & MOBILIZATION

ACCOUNTABILITY & TRANSPARENCY

Transparency in the allocation of resources (financial, human and goods & services)

- Accountability for all involved parties
- Quick financial decisions
- Enable effective execution of decisions
- Contractual deadlines met/automated
